A Bald Eagle Visits the Lake.

Last Sunday afternoon a fine specimen of the bald eagle visited the lake at the water plant, and after circling around for some time he made a swoop and came up with a bass in his talons. Dr. J. W. Barlow was near the lake and was an interested spectator of the incident. After the eagle had made his catch he circled about for some time, and the Doctor noticed that the eagle was having some trouble with his prey. Finally the fish wriggled from the talons of the eagle and fell a short distance from the spot where the Doctor was standing. It was a fine specimen of black bass, and as it was so injured that it could not live, the Doctor took it home, where he placed it on the scales, which registered a pound and seven ounces. The fish were placed in the lake two years ago, and were supplied by the U. S. government. It was not thought that growth had been so rapid as this specimen shows.

Master commissioner E. A. Taylor made a record sale of coal lands at public auction last Monday, selling a tract of some 225 acres near Bevier at a rate of about \$55 an acre. This is a new top mark in the way of price, and shows that real values of coal lands are beginning to be appreciated. In a few years this will be doubled up a few times.

JUDGE SANDIDGE

Goes After the Soft Drink People in His Instructions to the Grand Jury.

HE USES STRONG LANGUAGE.

Judge Sandidge at the opening of court here Monday in instructing the grand jury took advantage of the opportunity and explained to the grand jury the importance of enforcing the present local option law by indicting the offenders of it. He said in the course of his remarks to the grand jury that the most common and ordinary way of violating the local option law was by engaging in the soft drink business. He explained to them that the persons engaged in the soft drink business had their regular customers as well as people engaged in other pursuits, and that they knew their trade also as well; that they usually gave their regular customer whiskey or beer, when they came to their bar while they would in no case sell a stranger any thing but a soft drink.

He explained to them that that kind of business might be carried on for a great length of time and no one suspect that the law was being violated. After explaining that there was very little difference in the various deceptions now sold from the real thing, all being made by brewerie, he called attention to the fact that the sale of all of them was a very poor attempt at the evasion of the law and should be punished.

In closing his instructions on the subject he said, in speaking of the soft drink stands in operation over the county, "I don't know anything that is more demoralizing in a community than an institution of this kind."

He asked the grand jury to investigate all violations of the law of this character and return indictments in all cases.

Greenville has 1604 population, according to the announcement made last week by the bureau. We had 1,051 in 1900 and 968 in 1890. The population of the county is 21,508, an increase from 22,000 in 1900 and from 17,955 in 1890. "Paradise, Paradise, Skilesville and South Carrollton all lost slightly in population. Next week we shall publish the population of the cities and towns of the whole state, showing returns of this and the previous census.

Best work, prompt service; give your laundry to Joe Morgan, who will appreciate your patronage.

Muhlenberg should have at least 450 miles of good roads, that is, good dirt roads, for the next year, as the fiscal court last week let contracts for that amount. The contractors are under bond for faithful performance of duties, and as the gentlemen are progressive, interested citizens of Muhlenberg, the public may expect special services. The bidders are low estimates on what it has formerly cost to keep the roads in condition, as the price was about \$15 per mile for the twelve months. This is only about half what has been spent under the old system. Other bids are solicited for the balance of the roads.

CIRCUIT COURT.

The spring term of Muhlenberg circuit court has been in session since Monday afternoon, and is getting settled down to normal business basis. Hon. W. P. Sandidge, judge, is on the bench, and is using his usual progressive mode of accelerating business. His instructions to the members of the grand jury were unusually comprehensive and at the same time specific, and extracts are made from it elsewhere. Hon. J. R. Mallory is representing the commonwealth, and is aided by county attorney T. O. Jones. This is a rather light docket in all departments. Following is a list of the juries:

Interest About Automobiles.

Mr. W. G. Crawford, I. C. agent here, has had letters from three division superintendents, stating a car had been loaded with automobiles at Peru, Ind., for delivery here, and urging him to hurry the car east as soon as empty, that class of rolling stock being in great demand now. The name of the consignee was not given, and inquiry has failed to develop the buyer. Considerable interest has been aroused, and many rumors are afloat.

Joe Morgan solicits that grocery order, and will show his appreciation by supplying the best goods at the very lowest prices. Quick delivery and courteous treatment.

PROMINENT CITIZEN DIES

W. G. S. Anderson, at Ripe Age. Falls Asleep Tuesday.

Mr. W. G. S. Anderson, in his 82nd year, died of a complication of ailments at 4:50 o'clock Tuesday morning at the home of his daughter Mrs. S. C. Eaves. For some weeks he had been confined to his room, and there had been little hope for his recovery. Mr. Anderson was well known all over the county, as he was for many years active and prominent in its development. He was born in Giles county, Tenn. In 1886 he came to this county as general manager of the Mud River Coal Co., and continued as such until 1902, when the tippie was burned. Operations were not resumed, but he continued to live there until May, 1906, when he came here and has made his home with his daughter. He was a bright, well read man, and a fine type of Southern gentleman. He was a member of the Presbyterian church, and a liberal supporter of all institutions for the upbuild of humanity. Short services were held at the home at 10 o'clock yesterday morning, conducted by Dr. Henderson and Rev. Mahoney, and interment was made in Evergreen cemetery. Surviving are his wife, Mrs. G. A. Alexander, Mr. David G. Anderson and Mrs. Bruce Carrier, of Athens, Ga., and Mrs. S. C. Eaves, of this city. A long and useful life has been extended to enlarged fields.

Call on Leslie Hale, next to First National Bank, for candies, books, sundries, cigars, tobacco, etc.

McLean Boy Gets Foreign Order.

Mr. Norton Weil, of Calhoun, has received an order for several specimens of butterflies, the order being sent by Charles H. Rothschild, a prominent London, England, entomologist who has attained high prominence in scientific research. This is merited recognition of Mr. Weil's efforts and study, as he is reported to have the finest collection of butterflies in the state, perhaps. In addition to this study, Mr. Weil is an accomplished musician, and a man who accomplished much along many lines. He is a brother of Mr. Sam Weil, who has many friends and admirers here, where he attended school for several years.

If you want that dead watch or clock put to work, let Mc have it and he will put it to running.

The Sunday-school service at the Methodist church last Sunday morning was given over to a special Easter observance, and the program as arranged for the children proved a rare treat for an audience that overflowed the auditorium and called for the newly added Sunday-school room. Every number was splendid, and reflected great credit on the many participants, as well as the teachers and program committee. The offering was for foreign work, and was very liberal.
